Leg It To Lapland Challenge

Kinson Academy is teaming up with sustainable transport charity **Walk Wheel Cycle Trust** to help reduce traffic and pollution by encouraging pupils to walk, cycle, or scoot to school.

We're participating in the **'Leg it to Lapland' challenge** from **November 30th – 4th December**, competing with other local schools to collectively reach 1958 virtual miles.

Every active journey (on foot or wheels) adds to our total!

Unable to actively travel the school journey? - inform us about alternative active journeys your children have made during the challenge here

Adults in the school community can also earn miles by telling us about alternative active journeys they have made during the challenge here.

The school with the highest average of active journeys per pupil will win an **assembly and stunt display show** with Terry Price www.scootercoaching.com and **scooter sessions for up to 60 pupils.** The runner up school will also receive a scooter display show.

Daily prizes include a **'Rudolph's nose ticket'** for one lucky active traveller.

Help us win! Walk, cycle, or scoot to school or elsewhere. If you must drive, park 10 minutes away and walk the rest—or team up with a walking friend.

Many thanks,

Denise, Kate, Shayna, Zoe and Helen
